OBJECTIVE & PERSONAL STATEMENT

I am simply a medical student who is really eager to work inside a lab and be part of the processes of scientific studies, also would like to gain research skills within my education to become a clinical scientist after my graduation. My main interests are pathology and infectious diseases. Since i am aiming to be a researcher in future, being part of a both clinical work and clinical research as a prospective medical graduate is the opportunity that i am looking for.

EXPERIENCE

Universitätsklinikum Carl Gustav Carus Dresden / Dr. E. Balaian Attended outpatient clinic sessions and inpatient ward visits in Hematology department and observed diagnostical lab methods like FACS, cytomorphology and cytogenetics.	Dresden, DE 07/24 - 08/24
Universität Ulm / Vettorazzi Lab Learned lab techniques like PCR, cell culture, histological sectioning/staining, western blot and worked on mice towards glucocorticoids' role on inflammation.	Ulm, DE 07/23 - 08/23
SciLifeLab / Mardinoğlu Group Prepared a comprehensive proteomics report and analyzed Kallisto/DESeq2 data in R.	Stockholm, SE 07/22 - 08/22

EDUCATION

Mersin University Faculty of Medicine Doctor of Medicine, 6th Grade, GPA: 82/100	Mersin, TR 09/23 – Current
Universita' degli Studi di Pisa Facoltà di Medicina e Chirurgia Doctor of Medicine - Erasmus Student	Pisa, IT 03/23 – 07/23
Mersin University Faculty of Medicine Doctor of Medicine	Mersin, TR 09/19 – 02/23

SKILLS

• Basic Bioinformatics • Microsoft Office • Linux • PCR • Histological Sectioning • Cell Culture

LANGUAGES

• Turkish: Native • English: Fluent • German: Elementary
